VISION

To deliver competent and skilled resources to face the challenges of a global industry

MISSION

- Design training programs for continuous development of Staff and Students
- Offer guidance on career development, resume building and interview skills
- Needs assessment of the corporate world through partnerships with all the stakeholders
- Obtain feedback from industries and corporates
- Secure challenging job opportunities
- Create a culture of continuous development and self-learning

ABOUT TRAINING AND PLACEMENT CELL

The Training and Placement Cell facilitates the process of placement of students graduating from the institute besides collaborating with leading organizations in setting up internship programs for the students. The Cell provides the infrastructural facilities to conduct pre-placement talks, online and written aptitude tests, group discussions, interviews besides catering to the hospitality of industry officials while on campus.

EVENTS

The Department of Computer Engineering in association with the Training & Placement cell, conducted a comprehensive hands-on session titled Data Science Essentials on 2nd August 2024 for the students of the Computer Engineering and Electronics and Computer Science Engineering. Dr. Shreyas Simu Introduced the speaker Dr. Chinnu Mary George to the audience. Dr. Chinnu Mary George provided a foundational understanding of Data Science and practical experience using ParseHub, a popular data extraction tool. Dr. George led a practical session using ParseHub, a visual data extraction tool. Students were guided through the process of setting up and using ParseHub to extract data from websites. The hands-on exercises included real-time data extraction tasks, allowing students to apply their learning and understand the practical aspects of web scraping. Dr. George shared real-world examples and case studies to illustrate the applications of Data Science in various industries. The session was well-received by the participants, who appreciated the blend of theoretical knowledge and practical skills. The hands-on experience with ParseHub was particularly valued, as it provided students with a tangible understanding of web data extraction, an essential skill in Data Science. A total of 65 students attended the workshop. The session was concluded by Dr. Norman Dias by proposing the vote of Thanks.

The Training and Placement Cell of our college (DBCE) organized an offline session on Higher Studies in Europe on Thursday, 22 August 2024 at seminar hall 1. The session was delivered by Ms. Madhavi Mauskar Kharshikar, Director, SWEC (South Western European Corridor) and was accompanied by Asmita Nakhate, Head SWEC – Nagpur Branch. Dr. Norman Dias, TPO, welcomed and introduced the speaker. In this session, she spoke about the various higher education opportunities in Europe and mentioned that they have tie-ups with universities in 12 different European countries. She addressed the students of FE, SE, TE, and BE of all courses on the scope for higher studies in European Countries with more emphasis on Germany. She mentioned, "We are here to guide you not only for your admissions but we will be there with you till you get a job." Students cleared their doubts after the session. Dr. Shreyas Simu, Assistant TPO of our college thanked Ms. Kharshikar for her valuable time, and wonderful interaction with the students.

On 9th October 2024, The Training & Placement Cell hosted a seminar on "Study Abroad Process and IELTS/GRE Preparation", in collaboration with Maxxcell, a leading educational consultancy in Goa. Dr. Norman Dias (TPO) introduced Maxxcell & Team to the audience. The session focused on helping students plan their higher education in countries like the UK, USA, Canada, Australia, and New Zealand. Maxxcell's team began with a talk on Career Counseling and University Selection, guiding students on how to choose the right university and program based on their academic background, interests, and financial capacity. They stressed the importance of strategic planning for third- and fourth-year students preparing for further education abroad. The seminar covered IELTS/GRE preparation, explaining the test structure and providing practical tips to improve scores. Maxxcell's small class sizes and personalized coaching were highlighted as key factors in helping students perform well in these exams. The team also provided insights into crafting a strong Statement of Purpose (SOP), Letters of Recommendation (LORs), and a tailored CV, stressing their importance in university applications. The seminar concluded with an engaging Q&A session, allowing students to clarify their doubts. Overall, the seminar was informative and provided students with valuable guidance on pursuing higher education abroad. The seminar was attended by 100 Students.

TCS conducted a session for students of pre-final and final year students of DBCE to introduce them to TCS CodeVita, a global programming competition aimed at enhancing coding and problem-solving skills. The session was conducted by Ms. Prachi Chavan. The session covered the registration process, competition structure, and strategies for success, including tips on problem-solving, algorithm design, and using coding platforms for practice. Students were encouraged to participate for both personal skill development and potential career opportunities, as high performers may be noticed by TCS for internships or job roles. The session was interactive, with a Q&A segment, and concluded with a motivational message emphasizing consistent practice and the benefits of joining the global coding community. The program was held on 18th October 2024 at Seminar Hall 1 from, 4 pm to 5 pm and coordinated by Dr. Norman Dias and Dr. Shreyas Simu.
